NORTH BEND CENTRAL

Building Success Together 

November 15, 2021

North Bend Central placed its Plan For Use of Funds and Stakeholder Feedback Survey on the district's website on July 7, 2021. Based upon feedback from stakeholders, at the August 9th, 2021 meeting the Board moved to allocate funds for an additional teacher for the 2021-22 and 2022-23 school years and install new HVAC units in the 4th/5th grade wing of the elementary school due to the pandemic.

The stakeholder survey was on the website and available to staff, parents and patrons. No feedback was received.

When it became evident that money would remain after these expenditures, at the October 9, 2021 meeting, the Board of Education voted to amend the ESSERS 3 application to include the installation of new doors and windows at the elementary school due to the pandemic.
